

Notice to Stores created under authority and the power of the People, wishing to attack the people with EMERGENCY MANDATES

Demand for CORRECTION and INVESTIGATION BY ARIZONA LEGISLATURE

Name of Store or Company: _____

Address of Store or Company: _____

Name (Man or Woman giving Notice): _____

Notice

Notice to Agent is Notice to Principal and Notice to Principal is Notice to Agent

This document is being given as notice for all employers and corporations of any type that are enforcing mandates, social distancing between family members and or other rules that interfere with the free exercise of use or expression of religion in the above named store or company. After this notice is given it is the responsibility of all employees and people working for this establishment to look deeper into the law that they may provide due care to any of the members reserving their rights based on the declarations of the membership association they are part of or as private people.

Please take notice that its the right of the people to frequently teach the government officials and their agents that we may keep a free government:

Text of Section 1:
Fundamental Principles; Recurrence to

“A frequent recurrence to **fundamental principles is essential to the security of individual rights** and the **perpetuity of free government.**” [Emphasis added by Highlight]

Please take further notice that government officials are here to protect the individual rights of the people, and have no authority to act outside of the constitutional purpose for their creation [see Article 2 Section 2 of Arizona Constitution] as state below:

Text of Section 2:
Political Power; Purpose of Government

“**All political power is inherent in the people, and governments derive their just powers from the consent of the governed, and are established to protect and maintain individual rights.**” [Emphasis by Highlight added]

Because it’s the duty of the government to protect and maintain individual rights of the people, it is not lawful for any official or representative servant to tell a business that it is acceptable to reject people for not allowing the limitations of their rights. Furthermore, Arizona Constitution, which gives government and corporations the power to exist, prohibit it plainly as seen below:

Arizona Constitution Article 2 Section 3(B)

“...B. **To protect the people's freedom** and to preserve the checks and balances of the United States Constitution, **this state may exercise its sovereign authority to restrict the actions of its personnel** and the use of **its financial resources** to purposes that are consistent with the constitution by doing any of the following:...”

Please take further notice that the above constitutional provision shows two separate statuses, firstly, the people, which we know have all political power, who’s freedoms must be protected

and not diminished (including forced mandates, vaccinations, and forced participation in any emergency plan). Secondly, the state does have a sovereign authority over a totally different status; its personnel (the officers who decide to be bound by the rules and regulations of the government in return for employment. As one of the people, I wish for any public official who believes their sovereign authority is over the rights of the people to respond by notarized affidavit, sworn under the penalty of perjury, with constitutional provisions showing where one was granted these powers. This notice will give more enlightens on why you have absolutely zero power to infringe upon the rights of the people and it is your duty to look deeper into these issues posthaste;

Please take further notice that the people have a right to raise their children and deal with health in the **private** realm in which government is not allowed to remove this right without the law of the land, including due process of law (common law, not statutes or codes), a jury of ones peers, and an affidavit swearing one has done wrong under the penalty of perjury with first hand knowledge of the facts, please see evidence below:

Arizona Constitution Article 2 Section 8

Text of Section 8:
Right to Privacy

"No person shall be disturbed in his private affairs, or his home invaded, without authority of law." [Emphasis by Highlight Added]

Please take further notice that a man or woman shopping is considered an activity that is not "public" or dealing with governmental affairs, by which one may be restricted and the people can not have their rights abrogated by any rule and the legislature can't even write legislation that would do so (Please see Miranda V Arizona below:

Where rights secured by the Constitution are involved, there can be **no rule making or legislation which would abrogate them.**-- Miranda vs. Arizona, 384 US 436 p. 491 [Emphasis by Highlight Added]

Please take further notice that the Legislature can't order an agency to do what it lacks the power to do. The rules of agencies are for those who work under the agency and are to never abrogate (remove or diminish) the rights of the people, and the legislature was never given the power to Legislature harmful acts limiting the rights that are so clearly shown in the Constitution they swore to protect;

Please take further notice that the corporations did not get their power to exist from the Legislature but its found in Article 14 of the Arizona Constitution and was placed there by the people as seen below:

Text of Section 1:
"Corporation" Defined; Right to Sue and Suability

"The term "corporation," as used in this article, shall be construed to include all associations and joint stock companies having any powers or privileges of corporations not possessed by individuals or co-partnerships, and all corporations shall have the right to sue and shall be subject to be sued, in all courts, in like cases as natural persons. [Emphasis by Highlight Added]

Please take notice that as a corporation, you are not a private entity, but created by the power and authority of the people, therefore, trying to aggressively force mandates and emergency plans on people in the private realm is not acceptable, and the people do have full intent on creating initiatives to block access to commerce in this state by any business that believes it will go against Federal and State public accommodation statutes by going against the peoples religious freedom, rights, and liberty;

Any corporation or entity doing commerce on the land of the people, be it in the United States or any of the several states (the 50 states) are all established and allowed to do commerce by the power of the people who created the governments and the constitution empowering the governments to give statutory power for companies to create entities to do commerce on the land of the people. Please see the following evidence below:

Article 1 Section 8 of Federal Constitution:

Clause 3: [The Congress Shall Have Power...] To regulate Commerce with foreign Nations, and among the several States, and with the Indian Tribes; ...

The people created the constitution of the United States as well as the Constitution of the several states, giving power to governments to allow for the establishment of entities in commerce that would use the peoples roads and at times carry passengers and or products in order to build wealth that was outside of the individual rights of men and women handling their own private affairs. Because you are working by privilege and in use of the power of the people, you are not allowed to restrict access of the people to full use and service of your establishment for certain reasons. Please see the following evidence:

1. Public Law 88-352, Sec. 201 (a) "All persons shall be entitled to the full and equal enjoyment of the goods, services, facilities, privileges, advantages, and accommodations of any place of public accommodation , as defined in this section, without discrimination or segregation on the ground of race, color, **religion**, or national origin in.

Please take further notice the State of Arizona contains these same guidelines in their statute as shown below;

A.R.S 41-1442. Discrimination in places of public accommodation; exceptions

A. Discrimination in places of public accommodation against any person because of race, color, **religion**, sex, national origin or ancestry is contrary to the policy of this state and shall be deemed unlawful.

B. No person, directly or indirectly, shall refuse to, withhold from or deny to any person, nor aid in **or incite the refusal to deny or withhold, accommodations, advantages, facilities or privileges thereof because of** race, color, **religion**, sex, national origin or ancestry, nor shall distinction be made with respect to any person based on race, color, religion, sex, national origin or ancestry in connection with the price or quality of any item, goods or services offered by or at any place of public accommodation.

Please take notice that the whole emergency chapter does not apply to the people or private organizations, in the above explained private capacity and any attempt to use force of police agents in order to apply statutes for personnel against people in the private realm will not be tolerated and A.R.S. 26-317 already explains this:

26-317. Violation; classification

Any person who violates any provision of this chapter or who knowingly fails or refuses to obey any lawful order or regulation issued as provided in this chapter shall be guilty of a class 1 misdemeanor. This provision does not apply to the refusal of any private organization or member thereof to **participate** in a **local emergency or state of emergency as defined by this chapter.** [Emphasis by Highlight Added]

Please take further notice that the people realize, the "person" in this statute is simply one of those acting as government personnel and that this statute doesn't apply to the people, who are in the private, nor can it. Now that the people, our servants and the corporations have an understanding, the following penalties will be assessed if you wish to infringe upon the people's right to be free:

Please notice as a man or woman working within a corporation, you function by the permission of the people and the law that governs your store or employment facilities. This member of a Private Association, as a religion, is not to wear a mask, consume blood of man or receive vaccines, submit to, or accept any tags or labels in order to be able to buy or sell. If you or any of your employees or officers wish to prevent the use of any of your facilities or to intervene with full accommodation, including forced wearing of any garments or mask, this member agrees to not use your facility for \$10,000 per incident and that the man or woman, reserves the right to use an arbitrator of his or her choice after serving an affidavit, to exclusively hear the matter. Furthermore, it is the intention of this member to bring forth an investigation, by the legislature of Arizona, to regulate your affairs and correct any unlawful behavior or any limitations on the rights of the people.
